

# DART

## TL;DR Summary

- Real-Time Tier 1 Reporting
- Works with your existing system
  - Use your existing tools
  - No Migrations
- Access all your data
  - across all your tools
  - as a single unified source
- Real data
  - no massaging
- Only read access
  - no write security concerns
- Doesn't store your data
  - each report is fetched in real time
  - no storage security concerns
- Includes **any** data source
  - even vendor and supplier data
- Join any data-set to any other data-set
  - even other DART reports
- Can use existing data sources
  - existing custom queries
  - non-DART reports
- Always fresh, real data at your fingertips
- Management has live data
  - Real-time accountability
